

# ProofBase

Product Data Sheet

## Universal Acrylic Primer

ProofBase Acrylic Primer is a universal, breathable primer that completes the ideal substrate preparation before the application of ProofTherm Insulating Render or Plaster.

ProofBase controls suction and provides an ideal adhesive key for optimum results in all rendering jobs. Its vapour permeable formulation allows the substrate to breathe and works in conjunction with ProofTherm Insulating Render/Plaster to maintain a healthy, damp free internal environment.

# ProofBase

## Product Data

### Description

ProofBase is a universal, acrylic primer which is used to treat substrates before the application of ProofTherm Insulating Render or Plaster. It is sold in ready to apply 15l tubs. One tub will cover approximately 125m<sup>2</sup>.

### Properties

- Highly vapour permeable
- Hydrophobic acrylic formulation
- Easily applied using a roller or brush
- Rapid drying

### Composition

- Water
- Acrylic Polymers
- Silica aggregates
